

LABORATORY TECHNICIAN

SVL Analytical has an opening for a Laboratory Technician. As a Laboratory Technician you will be contributing to the success of analytical projects that meet the client and regulatory needs. This position requires a hard-working, motivated person with exceptional organizational skills. Attention to detail and the ability to work in a fast-paced environment are crucial to success.

Job responsibilities include

- Follow established laboratory procedures
- Prepare laboratory samples and reagents for analyses
- Verify that laboratory equipment and instrumentation are set up and functioning properly
- Perform laboratory analysis of samples utilizing established techniques and quality control

Minimum Requirements:

- High school diploma. Four years of high school math and science preferred.
- Desire to learn and understand complex processes
- Excellent computer skills
- Attention to detail
- Able to work under pressure and multi-task to meet deadlines
- Ability to collaborate with colleagues and quickly problem solve
- Ability to read and understand written procedures
- Able to stand for 6-8 hours daily, manipulate small items manually and lift up to 50 lbs.
- Must be legally able to work in the U.S.

Ideal Candidate also has the following:

- College math and science course work completed
- Previous laboratory experience

Position Details: This is a full-time, hourly position with benefits

Resumes can be submitted via email to svlcareers@svl.net. The position is open until filled. Please see www.svl.net for company information.
